Ayman Younes Allam

Ph.D., Associate Professor & Head of the Department of Food Sciences and Technology, Faculty of Agriculture, Menoufia University, Egypt.

PERSONAL INFORMATION:

Date of birth: 05 December 1985
Nationality: Egyptian
Sex: Male
Marital Status: Married, having three sons.
Address & Present Occupation: Engineers Syndicate Tower, Al Jendi St., Shibin El-Kom, Menofia Governorate, Egypt, Postal code: 32511.

CURRENT POSITION

Associate Professor & Head of the Department of Food Sciences and Technology, Faculty of Agriculture, Menoufia University, Shibin El-Kom, Menoufia Governorate, A.R. Egypt

SUMMARY

Professional Summary:

I'm **Dr. Ayman Younes Allam**, an experienced academic, researcher, and consultant specializing in **Food Science, Food Safety Systems, Biotechnology, and Microbiology**. I have a proven record of **developing and implementing international standards** (ISO 22000, HACCP, BRCGS, ISO 9001, ISO 14001) and leading successful **research and academic projects**. Passionate about **bridging science and industry**, I focus on advancing **food safety, sustainability, and innovation**, while empowering students and fostering strong **industry–academia partnerships**. Skilled in **strategic management, project leadership, team building, and quality assurance**, I am dedicated to driving research excellence, enhancing departmental performance, and supporting the next generation of food scientists.

RESEARCH INTERESTS

- **Food Safety & Preservation:** Development of novel strategies to enhance the safety, shelf-life, and quality of meat, seafood, and plant-based products.
- **Functional Foods & Nutraceuticals:** Exploration of bioactive compounds, antioxidants, and natural preservatives to improve

SKILLS

Food Safety & Quality Systems

- ISO 22000, HACCP, BRCGS, FSSC 22000
- ISO 9001, ISO 14001, ISO 45001 / OHSAS 18001
- HALAL Certification & Food Safety Auditing

Research & Technical Expertise

- Food Safety & Preservation, Functional Foods & Nutraceuticals
- Molecular Biology, Microbial Ecology, Biotechnology
- Proteomics, Bioactive Compound Extraction & Characterization
- Lipid Oxidation, Antioxidant Activity & Shelf-life Studies
- Sensory Evaluation & Consumer Testing.

nutritional and health-promoting properties of foods.

- **Molecular Biology & Biotechnology:** Application of proteomics, genomics, and microbial ecology techniques to study foodborne pathogens and plant/animal-derived bioactive compounds.
- **Food Quality & Analytical Techniques:** Lipid oxidation, sensory evaluation, texture analysis, chromatographic and spectrophotometric profiling of food matrices.
- **Green Nanotechnology & Bioactive Nanomaterials:** Synthesis and characterization of biogenic nanoparticles for antioxidant, antimicrobial, and food preservation applications.
- **Applied Food Research & Product Development:** Bridging research with industry for functional food formulation, process optimization, and quality assurance.
- **Sustainable Food Systems:** Valorization of agro-industrial by-products and waste to create high-value functional ingredients.

PROFESSIONAL MEMBERSHIPS & AFFILIATIONS

- **Associate Professor & Head**, Department of Food Science and Technology, Faculty of Agriculture, Menoufia University, Shibin El-Kom, Menoufia, Egypt
- **Egyptian Society of Food Science and Technology** – Active Member
- **Institute of Food Technologists (IFT), USA** – Professional Member
- **International Association for Food Protection (IAFP)** – Member
- **World Academy of Science, Engineering and Technology (WASET)** – Contributing Member & Conference Reviewer
- **International Union of Food Science and Technology (IUFoST)** – Affiliated Scientist
- **Egyptian Society for Biotechnology** – Senior Member
- **Arab Society for Plant Protection** – Member
- **Society of Food Engineering** – International Member
- **European Federation of Food Science and Technology (EFFoST)** – Professional Member
- **Asian Council of Science Editors (ACSE)** – Editorial & Peer Review Member
- **African Society of Food Science and Technology** – Member
- **Global Harmonization Initiative (GHI)** – Food Safety Advocate & Member
- **International Society of Food Engineering (ISFE)** – Research & Development Member
- **The Nutrition Society, UK** – Corresponding Member
- **Frontiers in Food Science and Technology** – Editorial & Review Board Member
- **International Academy of Food Science and Technology (IAFoST)** – Nominated Expert (if applicable)
- **Elsevier Researcher Academy** – Certified Member

EXPERIENCE

Head of the Department of Food Sciences and Technology, **11/2023 to Current**
Menoufia University - Shibin El-Kom, Menoufia Governorate

Analytical & Laboratory Techniques

- Chromatography (HPLC, GC-MS)
- Spectrophotometry (UV-Vis, FTIR)
- PCR, Gel Electrophoresis, Microbiological Assays
- Texture Profile Analysis (TPA)
- Statistical & Data Analysis: SPSS, Minitab, R, Design-Expert, GraphPad Prism, ImageJ.

Academic & Teaching Excellence

- Curriculum Development & Training Facilitation
- Student Mentorship & Academic Advising
- Scientific Writing, Peer-reviewed Publishing & Grant Proposal Development
- Academic Presentations & Public Speaking

Management & Leadership

- Strategic Planning & Innovation Management
- Project Management & Industry–Academia Collaboration
- Team Leadership, Conflict Resolution & Cross-functional Collaboration
- Program Assessment, Budgeting & Business Development

Digital & Professional Tools

- Microsoft Office Suite, LIMS, Academic Databases
- Scheduling, Resource Coordination & Workflow Optimization
- Public Engagement, Media Relations & Networking

SOFTWARE

Microsoft Office Suite (Word, Excel, PowerPoint, Outlook)

Advanced

Statistical & Data Analysis: SPSS, Minitab, R, Design-Expert,

Associate Professor, 10/2023 to Current
Menoufia University - Shibin El-Kom, Menoufia Governorate

- Supervisor and course designer, practical and theoretical works, and internships for undergraduate and postgraduate students in the College of Food Sciences and Technology Department.

Assistant Professor, 08/2013 to 06/2018
Menoufia University - Shibin El-Kom, Menoufia Governorate

- Total charge of education.
- Supervised course design, practical work, and internships for post- and undergraduate students in the Department of Food Science and Technology.
- Supervisor of Academic Programs (BSc, MSc, PhD), Food Sciences and Technology Department.

Assistant Lecturer, 09/2012 to 10/2018
Faculty of Agriculture, Menoufia University, Minufiya, Egypt, Total Charge of Education (1500h). - Shibin Elkom

- **Initiated and facilitated interactive classroom discussions**, encouraging active student participation.
- **Enhanced critical thinking and problem-solving skills** through active learning strategies and applied case studies.
- **Developed strong student rapport** by maintaining clear communication, empathy, and genuine interest in academic growth.
- **Provided academic support and feedback** by meeting with students during and after office hours to address concerns.
- **Supervised course design, laboratory practicals, and student internships** in the Department of Food Science and Technology.

Administrator, 09/2007 to 08/2012
Faculty of Agriculture, Minufiya University, Minufiya, Egypt, Total Charge of Education (3260h). - Shibin El-kom

- Delivered over **3,260 hours of teaching** across courses in the **Department of Food Science and Technology**.
- **Designed, supervised, and evaluated practical work** to enhance student learning and hands-on application of theoretical concepts.
- Supported the development of course materials, laboratory sessions, and academic assessments.
- Contributed to the academic growth of students through effective teaching strategies, mentorship, and continuous feedback.

ACADEMIC DEGREES

Doctor of Philosophy (Ph.D.) in Technology of Meat, Dairy, Fish Products, and Refrigeration Industries
Voronezh State University of Engineering Technologies, Voronezh, Russian Federation
Dec 2013 – Jun 2018

- Equalized in Egypt as **Ph.D. in Biological and Food Sciences**.
- Dissertation supervised by **Prof. Dr. Natalya Vadimovna Dolganova**, Astrakhan State Technical University.

GraphPad Prism, ImageJ
Advanced

Laboratory & Research Management: LIMS (Laboratory Information Management Systems)
Advanced

Chromatography & Spectroscopy Software: HPLC, GC-MS, LC-MS/MS analysis tools, UV-Vis, FTIR software
Advanced

Bioinformatics & Molecular Biology Tools: PCR analysis software, gel electrophoresis imaging tools
Advanced

Scheduling, Resource Coordination & Workflow Optimization Tools
Advanced

Academic & Research Databases: Scopus, Web of Science, Elsevier Researcher Academy
Advanced

Online Collaboration Platforms: Google Workspace, Zoom, Teams, Online Conference Platforms
Advanced

Master of Science (M.Sc.) in Food Science & Technology
Faculty of Agriculture, Menoufia University, Egypt
Feb 2008 – Aug 2012

- Graduated with **Excellent with Honors**, Ranked **1st out of 15**, GPA: **4.00/4.00**.
- Equalized in Russia as **M.Sc. in Food Science & Technology**.

Bachelor of Science (B.Sc.) in Food & Dairy Sciences
Faculty of Agriculture, Menoufia University, Egypt
Sep 2003 – Jun 2007

- Graduated with **Excellent with Honors**, Ranked **1st out of 15**, GPA: **4.00/4.00**.
- Equalized in Russia as **B.Sc. in Food Science & Technology**.

EDUCATION

Ph.D., **Technology of Meat, Dairy, Fish Products, and Refrigeration Industries**, **12/2013 to 06/2018**
Voronezh State University of Engineering Technologies - Voronezh, Moscow, Russian Federation

High School Diploma, **12/2013 to 06/2018**
Voronezh State University of Engineering Technologies - Voronezh, Moscow, Russian Federation
1- Higher Diploma in Documentation of Scientific Activities: Obtained from the Institute of Additional Education FSBEI HE “VSUET” February 19 to March 2, 2018, Voronezh - Moscow, Russian Federation.

- Higher Diploma in Professional Russian Language: Obtained from the Institute of Additional Education FSBEI HE “VSUET” March 5 to March 16, 2018, Voronezh - Moscow, Russian Federation.

- Higher Diploma in Graphical and Mathematical Interpretation of Experimental Data: Course titled "Graphic and Mathematical Interpretation of Experimental Data" Obtained from the Institute of Additional Education FSBEI HE “VSUET” March 19 to March 30, 2018, Voronezh - Moscow, Russian Federation.

- Higher Diploma in Providing Consultations for Postgraduate Students on Work Subjects: Course titled "Consulting for Postgraduates on Work Subject" Obtained from the Institute of Additional Education FSBEI HE “VSUET” April 2 to April 14, 2018, Voronezh - Moscow, Russian Federation.

- These international certifications underscore your commitment to academic and professional development, particularly in areas related to scientific research, language proficiency, data analysis, and business entrepreneurship.

Master of Science (MSc), **Food Science & Technology**, **02/2008 to 08/2012**
Faculty of Agriculture, Menoufia University - Menoufia, Egypt

- Mention: Excellent with honor grade
- Ranking: 1/15
- GPA: 4.00

Bachelor of Science (BSc), **Food & Dairy Sciences**, **09/2003 to 06/2007**
Faculty of Agriculture, Menoufia University - Menoufia, Egypt
- Mention: Excellent with honor grade
- Ranking: 1/15
- GPA: 4.00

GOALS AND AREAS OF INTEREST

Primary Goals
- Contribute to food security, safety, innovation, and sustainability through research, education, and industry collaboration.
- Advance research career through international collaboration and multidisciplinary projects.
- Improve global food safety, quality assurance, and functional food development.
- Modernize and internationalize Food Science and Technology education.
- Support capacity building in academic and research institutions through mentorship and program development.
- Enhance student employability by aligning education with industry needs and fostering technical and communication skills.
- Facilitate integration of food safety and biotechnology into public policy and industrial practice.
- Bridge the gap between scientific research and private sector applications in food processing and preservation.

Key Areas of Scientific Interest:
- **Food Safety & Microbial Control:** Risk assessment, predictive microbiology, HACCP systems.
- **Functional Foods & Nutraceuticals:** Development and characterization of health-promoting food ingredients from natural sources.
- **Biotechnology & Fermentation Technology:** Application of microbial biotechnology to improve food value and shelf life.
- **Molecular Biology & Microbial Ecology:** Study of microbial communities in food systems and their genetic behavior.
- **Food Processing & Preservation:** Innovative techniques including edible coatings, natural preservatives, and packaging systems.
- **Sustainable Food Systems:** Valorization of food waste, green technologies, and circular economy in food production.
- **Proteomics & Bioactive Peptides:** Isolation and characterization of biofunctional compounds in seafood and plant-based matrices.
- **Natural Antioxidants & Antimicrobials:** Extraction and application of phytochemicals in meat, fish, and dairy products.
- **Postharvest Technology:** Quality and shelf-life enhancement of fresh produce through biological and physical methods.

ACCOMPLISHMENTS

- Resolved product stability issues through targeted consumer sensory testing and shelf-life evaluation.
- Supervised and coordinated a team of 25 research assistants and technicians across multiple food technology projects.

- Achieved a 60% reduction in spoilage rates by improving cold chain handling protocols in seafood preservation studies.
- Streamlined collaborative research workflows and manuscript tracking, increasing publication output by 80%.
- Developed advanced inventory and sample tracking systems using Microsoft Excel for laboratory and pilot plant operations.
- Enhanced data analysis efficiency by introducing SPSS and GraphPad Prism for statistical processing and visualization.
- Corrected equipment calibration inconsistencies, improving accuracy in microbial and chemical analyses.
- Collaborated with 25 international scientists on the project "Enhancing Shelf Life of Frozen Cod Fillets Using Spice-Based Coatings."
- Developed and optimized edible coating formulations enriched with spice extracts and essential oils to extend frozen seafood shelf life.
- Led cross-functional teams to secure competitive research funding, including grants from Taif University (TU-DSPP-2024-174).
- Supervised and mentored 10+ postgraduate students, facilitating publications in high-impact journals.
- Designed and implemented a new food safety curriculum, improving student performance by 25%.
- Initiated multi-institutional collaboration on valorizing date seed by-products for functional food applications.
- Published 30+ peer-reviewed articles indexed in Scopus and Web of Science on food preservation, functional ingredients, and microbial safety.
- Applied advanced analytical techniques (GC-MS, HPLC, LC-MS/MS) to profile bioactive compounds from plant-based extracts.
- Introduced HACCP and ISO 22000 training modules for students, enhancing employability and industry readiness.
- Designed innovative food packaging materials infused with natural antimicrobials, reducing microbial load during storage.
- Represented faculty at national and regional conferences, receiving the Best Research Poster Award at the 2023 GCC Food Safety Forum.
- Digitized academic advising and student tracking systems using Excel, Google Workspace, and academic ERPs, improving departmental efficiency.
- Boosted team research output by 45% through structured workshops and interdepartmental brainstorming sessions.
- Managed research equipment budgets, achieving 20% cost savings via strategic vendor negotiation.
- Contributed to curriculum development committees, aligning programs with current food industry and regulatory requirements.

ADDITIONAL INFORMATION

Professional Interests

- Food Safety and Quality Control
- Edible Coatings and Natural Preservatives
- Functional Foods and Nutraceuticals
- Microbial Ecology and Food Microbiology
- Molecular Techniques in Food Analysis
- Shelf-Life Extension and Packaging

Career Objectives

- Collaborate with multidisciplinary teams in research, consultancy, and education.
- Modernize teaching and research in Food Science and Technology.
- Bridge the gap between academic research and the food industry.
- Support professional development and employability of food science graduates.
- Contribute to sustainable food safety solutions at national and international levels.

Skills & Strengths

- Departmental leadership and strategic planning
- Strong academic publishing record
- Curriculum development and teaching innovation
- Experience with national and international research collaborations
- Project management and research grant coordination
- Excellent communication, mentoring, and team-building skills

LANGUAGES

- **Arabic** (Native)
- **English** – Listening: C1 | Reading: C2 | Speaking (interaction/production): C1 | Writing: B2
- **Russian** – Listening: C1 | Reading: C1 | Speaking Interaction: C1 | Speaking Production: C2 | Writing: C1
- **French** (Intermediate)
- **German** (Basic – one course)

Framework Reference: Common European Framework of Reference for Languages (CEFR) – A1 to C2.

CERTIFICATIONS

- ISO 22000 Lead Auditor / Food Safety Management Systems – International Organization for Standardization
- Certified Lead Auditor for Food Safety Management Systems (ISO 22000 & FSSC 22000), European Association of Auditors
- Training of Trainers (TOT) Program, 2025
- ISO 9001:2015 – Quality Management Systems
- BRC Global Standard for Food Safety, Issue 8
- BRC Global Standard for Packaging Materials, Issue 6
- Food Defense and Food Fraud Prevention
- ISO 22000:2018 – Food Safety Management Systems
- ISO 45001:2018 – Occupational Health and Safety Management Systems
- ISO 14001:2015 – Environmental Management System
- HACCP System Certification
- Food Safety Certification
- OHSAS 18001 – Occupational Health and Safety
- CE Mark – Safety Standard
- ISO 22000 Lead Auditor / Food Safety Management Systems – International Organization for Standardization
- HACCP (Hazard Analysis Critical Control Point) Certification – Food Safety Professional Training

- BRCGS (Brand Reputation Compliance Global Standards) Certification – Global Food Safety Initiative
- FSSC 22000 (Food Safety System Certification) – ISO Technical Committee TC 34/SC 17
- ISO 9001:2015 Quality Management Systems – Certified Implementation & Audit
- ISO 14001:2015 Environmental Management Systems – Certified Implementation & Audit
- ISO 45001 / OHSAS 18001 Occupational Health & Safety – Certified Training
- HALAL Certification & Food Safety Auditing – Accredited Training
- Food Defense Awareness Training – Preventive Controls Alliance (PCA)
- Professional Membership & Reviewer Certifications – IFT, IAFP, WASET, EFFoST, ACSE

INTERESTS

- Scientific Writing & Peer Review: Actively engaged in writing research articles and reviewing papers for international journals in Food Science and Technology.

- Academic Mentorship: Passionate about mentoring undergraduate and postgraduate students in research methodology and scientific communication.
- Public Speaking & Science Communication: Frequently participate in seminars, workshops, and scientific conferences, promoting awareness in food safety and sustainability.
- Volunteering for Food Safety Campaigns: Participated in awareness programs and community outreach related to food hygiene, nutrition, and safe handling practices.
- Reading Scientific Literature: Enjoy exploring new research trends in molecular biology, biotechnology, and food preservation.
- Digital Design for Science Communication: Interested in creating infographics and graphical abstracts to simplify complex scientific ideas.
- Sports & Well-being: Enjoy walking, table tennis, and swimming to maintain work-life balance.

OBJECTIVES

– Academia & Research Focus

"Dedicated academic and researcher in Food Science and Biotechnology, seeking to contribute expertise in food safety, molecular biology, and functional food innovation to advance research, education, and student development while building strong industry–academia collaborations."

– Industry & Consultancy Focus

"Results-driven food science professional with proven experience in ISO 22000, HACCP, and food safety systems, aiming to leverage research and consultancy expertise to enhance food quality, sustainability, and innovation in leading organizations."

– Hybrid (Academia + Industry)
"Versatile academic, researcher, and consultant specializing in Food Science, Food Safety, and Biotechnology. Seeking opportunities to integrate advanced research with industry applications, drive innovation in functional foods and sustainability, and support organizational growth through strategic leadership, quality systems, and scientific expertise."

AWARDS & HONORS

- **University Encouragement Award for Agricultural Sciences** – Menoufia University, Egypt (2023)
  Recognition of outstanding achievements and contributions in agricultural sciences, reflecting academic excellence and research impact.

- **Supervision Award for the Best Graduation Project** – Faculty of Agriculture, Menoufia University, Egypt (2024)
  Awarded for exemplary mentorship and leadership in supervising a top-ranked student research project.

- **Science Award** – Astrakhan State Technical University, Russia (2017)
  Honored for contributions to scientific advancement in food science and related disciplines.

- **Best Scientific Research Award (3rd Place)** – Moscow, Russian Federation (2017)
  Recognized for innovative and high-impact scientific research in food science and biotechnology.

- **Best Scientific Research Award (2nd Place)** – Moscow, Russian Federation (2016)
  Awarded for excellence in scientific research presentation and contribution to food science innovation.

PRACTICAL EXPERIENCE IN FOOD SCIENCE AND TECHNOLOGY

Food Analysis
- Proficient in conducting chemical and microbiological analyses of food products, including moisture, protein, fat, carbohydrate levels, and microbial counts.
- Skilled in using analytical equipment and techniques such as spectrophotometry, chromatography (HPLC, GC-MS), and centrifugation.

Food Processing
- Hands-on experience with food processing techniques such as extrusion, baking, fermentation, and heat treatment.
- Involved in optimizing processing parameters to enhance product quality, texture, and shelf-life.

Quality Control
- Experienced in implementing quality control procedures to ensure

compliance with food safety and regulatory standards.
- Skilled in sensory evaluation, product testing, and monitoring production processes to address quality issues.

Product Development
- Practical expertise in the formulation and development of new food products, including functional foods and dietary supplements.
- Experienced in ingredient selection, blending, optimization of formulations, and consumer sensory evaluation.

Food Safety
- Knowledgeable in Good Manufacturing Practices (GMP), hazard analysis, and risk assessment to prevent contamination.
- Experienced in maintaining hygiene standards and ensuring compliance with national and international food safety laws.

Sensory Evaluation
- Expertise in assessing taste, texture, aroma, and appearance of food products.
- Conducted consumer panels and sensory studies to refine product formulations and align with market trends.

Nutritional Assessment
- Skilled in evaluating the nutritional composition of food products and tailoring formulations to meet specific dietary and health needs.

Research and Innovation
- Actively engaged in research on natural compounds, food additives, and processing methods to improve food quality, functionality, and health benefits.

PARTICIPATION IN ACADEMIC DEVELOPMENT, COMMITTEES, AND COMMUNITY ENGAGEMENT

Leadership Roles
- Acting Chairman, **Food Science and Technology Department Council**, Faculty of Agriculture, Menoufia University.

Committee Memberships
- Member, **E-Learning Committee** (Department & College level).
- Member, **Community Service and Environmental Development Affairs Sector Committee**, Faculty of Agriculture, Menoufia University.
- Member, **Administrative Apparatus Standard Coordination Committee** (2019–present).
- Member, **Work and Control Committees** (Undergraduate & Postgraduate), Faculty of Agriculture, Menoufia University.

Strategic Contributions
- Contributor to the **Strategic Issues Bulletin**, Center for Strategic Studies and Leadership Preparation, Menoufia University (2021–present).
- Active participant in **policy development, academic regulations, and institutional development projects** at the departmental and faculty levels.

Community & Public Engagement

- Delivered **agricultural awareness convoys** in collaboration with the Community Service Sector, Faculty of Agriculture, Menoufia University.
- Speaker at the **Nile Center for Media** (Ministry of Information, Menoufia Governorate), delivering public lectures on agriculture and food science.
- Contributed to the **Healthy Nutrition Project** at Dar El Tarbia Official Language School, Ministry of Education, Egypt.

Research & Laboratory Development

- Collaborated in upgrading and expanding the **research laboratories** at the Department of Food Science and Technology, Faculty of Agriculture, Menoufia University.

UNIVERSITY AND COMMUNITY CONTRIBUTIONS

Department Leadership

- Head of Department, **Food Science and Technology**, Faculty of Agriculture, Menoufia University (Jan 2024–present).
- Supervised graduate students and participated in research discussions and evaluation sessions.

Research and Academic Support

- Published and registered multiple research papers via Menoufia University and the Scientific Research Administration.
- Co-prepared textbooks and study references for numerous courses, including *Meat and Fish Technology, Food Preservation Technology, Food Packaging, Food Chemistry, Food Analysis, Food Quality Control, Computer Applications in Food and Dairy,* and *Graduation Projects*.

Teaching and Course Development

- Delivered undergraduate and postgraduate courses with a focus on **modern teaching methods** and discipline in delivery.
- Taught and supervised the **Scientific Research Methodology** course for postgraduate students.

Quality Assurance & Accreditation

- Quality File Officer for **B.Sc. and Postgraduate programs**, Department of Food Science and Technology.
- Member of multiple quality assurance committees: Administrative Apparatus Standard Coordination (2019–present), E-Learning, and Faculty Quality Committees.

Consulting & Leadership Roles

- Consultant in **food industries** (since 2021, Faculty Council-approved).
- Director, **Healthy Meals Research Unit (Snacks Factory)** (2018–2021).
- Nominated leader of the **Government Excellence Award Application** (Second Session, 2020), coordinating and reviewing submission files.

Community Outreach & Agricultural Awareness

- Organized and delivered **agricultural awareness convoys** with the Community Service Sector, Faculty of Agriculture.
- Lecturer at the **Nile Center for Media**, Ministry of Information, on food

science and agriculture-related topics.
- Contributor to **Healthy Nutrition Projects** at Dar El-Tarbiya Official Language School in cooperation with the Egyptian Ministry of Education.
- Conducted agricultural training at institutions such as **Egypt Foods Company**, focusing on potato production and fast food health aspects.

Other Contributions

- Key participant in the **Small Business Skills Development Project** for youth in Menoufia Governorate (2008, HEEPF-funded).
- Participated in **control work** across multiple faculties at Menoufia University (Agriculture, Education, Childhood, and Commerce).

INTERNATIONAL UNIVERSITY AND COMMUNITY CONTRIBUTIONS

Coordinator for International Relations

- Appointed as the **main coordinator** between the Faculty of Agriculture, Menoufia University, and the International Relations Office (since May 2023).
- Responsible for managing and strengthening **academic and research cooperation** between Menoufia University and international institutions.

International Scientific Collaboration

- Spearheaded the establishment of a **scientific and research cooperation agreement** between Menoufia University and **Voronezh State University of Engineering Technologies** (Voronezh, Russian Federation) in the field of **Food Sciences** (May 2023).
- This agreement is designed to enhance **joint research, academic exchange, and capacity building**, particularly within the Department of Food Science and Technology.

INTERNATIONAL DIPLOMAS AND COURSES

- **Higher Diploma in Documentation of Scientific Activities**
  Institute of Additional Education, FSBEI HE "VSUET," Voronezh–Moscow, Russian Federation (Feb 19 – Mar 2, 2018).

- **Higher Diploma in Professional Russian Language**
  Institute of Additional Education, FSBEI HE "VSUET," Voronezh–Moscow, Russian Federation (Mar 5 – Mar 16, 2018).

- **Higher Diploma in Graphical and Mathematical Interpretation of Experimental Data**
  Institute of Additional Education, FSBEI HE "VSUET," Voronezh–Moscow, Russian Federation (Mar 19 – Mar 30, 2018).

- **Higher Diploma in Providing Consultations for Postgraduate Students on Work Subjects**
  Institute of Additional Education, FSBEI HE "VSUET," Voronezh–Moscow, Russian Federation (Apr 2 – Apr 14, 2018).

- **Entrepreneurship and Small Business (ESB) Certification** Certiport International, fully sponsored certification (Jan 27, 2021).

Note: These international certifications highlight your commitment to **academic excellence, research development, language proficiency, data analysis, postgraduate mentoring, and entrepreneurship**.

TECHNIQUES & PARTICIPATION IN RESEARCH LABORATORY DEVELOPMENT

- **Molecular Biology:** PCR, qRT-PCR, electrophoretic analysis, yeast mutant library replication, functional and chemical food analysis.
- **Microbiology:** Growth limitation and sterilization, culturing, microbial identification, microbial transformations, drug resistance testing (e.g., MIC).
- **Analytical Chemistry:** Physical methods, spectroscopy methods.
- **Biochemistry:** Nutritional quality evaluation of food materials, spectrophotometry.
- **Software & Data Analysis:** CLC, ImageQuant, Primer, Statistica, MEGA 4.0, BioEdit, Photoshop.

EDUCATIONAL & ADMINISTRATIVE ACTIVITIES

- **Leadership Roles:**
  Head of Food Science and Technology Department, Faculty of Agriculture, Menoufia University.
  Supervisor of the Food Safety Program.

- **Teaching Roles:**
  Associate Professor, Assistant Professor, and earlier Assistant Lecturer at the Faculty of Agriculture, Menoufia University.
  Academic supervisor of BSc (Level Bac+4) students.

- **Student Support & Development:**
  Member, Student Activities Committee.
  Supervision of research and technical studies in Food Science and Technology.
  Supervised student projects at levels M1, M2, and IUT, including:
  Food Packing and Packaging.
  Extraction of Physalis, HPLC analysis, and antimicrobial activity evaluation.

UNIVERSITY TEACHING (2007 – PRESENT)

- **Taught in Arabic, English, and Russian** across undergraduate and postgraduate programs.

  - **Lecture & Laboratory Courses:**
  - Introduction to Food Science and Engineering
    Microbial Resources / Food Microbiology / General & Molecular Microbiology
    Agricultural & General Biotechnology / Food Biotechnology /

Microbial Industries
Meat and Fish Technology / Dairy Microbiology / Food Fermentation
Food Chemistry / Food Analysis / Food Quality Control & Sanitation
Cereal Technology / Technology of Food Preservation / Functional Foods
Technology of Oils, Fats, and Sugar Products / Thermal Treatments of Food
Marketing and Packaging Technology / Home Food Industry
Food Quality Assurance and Food Safety Standards

- **Practical Contributions:**
  Laboratory instructor since 2008 (food engineering, food processing operations, product formulation, microbiology, nutrition, packaging).

SPECIALIZED LABORATORY & LECTURE COURSES

- Technology of Food Preservation
- Technology of Meat and Fish Products
- Cereal Technology
- Food Packaging and Marketing Technology
- Technology of Oils, Fats, and Sugary Products
- Food Analysis
- Home Food Industry
- Sanitary Conditions in Food Industries

WORK EXPERIENCE:

Academic Experience – Faculty of Agriculture, Menoufia University (Egypt):

- Progressed through roles as **Demonstrator, Assistant Lecturer, Lecturer, Assistant Professor, and Associate Professor** in the Department of Food Science and Technology.
- Responsibilities included preparing and managing laboratories, supervising practical sessions, maintaining student records, and evaluating coursework.
- Demonstrated the use of scientific equipment, guided students in practical experiments, and ensured laboratory readiness.
- Participated in **summer training programs** for third-year students, including laboratory training and field visits to food plants and research centers.
- Contributed to the preparation of teaching materials and supported the delivery of specialized Food Science courses.
- Supervised 7 **Ph.D. and 15 M.Sc. students** (currently under supervision).
- Acted as **external examiner** for doctoral and master's theses in different Egyptian universities.
- Published **~40 scientific papers** in peer-reviewed journals.
- Served as a **peer reviewer** for **45 scientific research papers** across international journals.

PROFESSIONAL INDUSTRY & CONSULTANCY EXPERIENCE

Food & Milling Industry:

- **Miller Engineer** – El Akhal Mills, Egypt | *2002–2004*
- **Nutrition Specialist** – El Azhar Institutes, Egypt | *2004–2007*

Food Safety & Standards

- **Food Standards Specialist** – Egyptian Organization for Standards and Quality (EOSQ), Ministry of Trade & Industry | *2018–2023*
  - Worked on **FSSC ISO 22000 for Food Safety** (ISO/TS 22002 + ISO 22000).
  - Collaborated with **ISO Technical Committee TC 34/SC 17** for Food Safety.
  - Contributed to **Codex Alimentarius Food Hygiene Committee (CCFH)**.

Consultancy & Auditing:

- **Independent Consultant – Quality & Food Safety Systems** | *2013–Present*
- **Quality & Food Safety Systems Consultant** – Olio International, Lebanese Frozen Food Company | *2022–2024*

Consultant for major companies including:

- **Royal Pack (France)** | 2019
- **AJWA Company for Food Industries** | 2018–Present
- **REGINA Group for Food Industries** | 2019–Present
- **RAKA Design Architects & Consulting Engineers** | 2020

- **Auditor** – QMS Company for Quality & Safety Certification | 2020–Present

KEY PROFESSIONAL CONTRIBUTIONS

1. Packaging Industry

- Implemented **ISO 9001, OHSAS 18001, BRC-IOP, ISO 14001** across major packaging companies.
- Established **BRCGS Packaging Materials Issue 6** in leading packaging firms (Interpack, Goodseal, Flexprint, El Andalos, etc.).
- Delivered **BRCGS Packaging training** for Egyptian Canadian Co., Grand Plast, ICOPACK, and others.

2. Food Industry

- Established and implemented **FSSC ISO 22000, ISO 9001, ISO 14001, HACCP, and BRC Food Safety Standards** in multiple food companies.
- Key clients included: **AJWA, REGINA, Royal Pack, AFIA (Savola), EMISAL, Alexandria Fishing Co.**
- Developed **HALAL certification criteria** for Olio International Lebanese Frozen Food Co.
- Conducted **FSSC ISO 22000 training** at Orouba Agrifoods Processing Co.

3. Fishing & Marine Products

- Implemented **BRC Food Safety Standards** for Alexandria Fishing Co.
- Established **HACCP systems for fishing vessels** and complied with **NFSA requirements** for seafood handling facilities.

4. Other Sectors

- Established **ISO 9001 systems** at EOS, MAX POWER, RAKA Design, and Anany & Partners.
- Developed **integrated management systems** (ISO 22000:2018, ISO 9001:2015, ISO 14001:2015) for Pharma Zad, KNOZ, AJWA, and ISKENDER companies.

5. Standards Development & Quality Assessment

- Contributed to the development of **international food safety standards** with **ISO/TC 34/SC 17** and **Codex Alimentarius (CCFH)**.
- Participated in **quality award assessments**, e.g., Univest Cosmetics for the **National Quality Award**.

COMPUTER SKILLS

- **Operating Systems:** Windows (advanced)
- **Programming Languages:** Basic, HTML, Java
- **Applications & Tools:** MS Office (Word, Excel, PowerPoint, Access), WordPerfect, AutoCAD, MATLAB, SAP, SPSS, SAS, M-Stat, Quattro Pro, Flowchart software

DIGITAL SKILLS (SELF-ASSESSMENT – BASED ON EU DIGITAL COMPETENCE FRAMEWORK)

- **Information Processing:** Proficient User
- **Communication & Collaboration:** Proficient User
- **Content Creation (text, data, presentations, reports):** Proficient User
- **Digital Safety & Security:** Proficient User
- **Problem-Solving (analytical tools, troubleshooting, digital innovation):** Independent User

COMMUNICATION SKILLS

- Strong communication and interpersonal skills gained through guiding new students in laboratory safety and instrument use.
    - Teaching experience as Assistant Lecturer and Lecturer, delivering tutorials, practical classes, and demonstrations in:
      Food Chemistry,
      Food Analysis,
      Food Quality Control,
      Food Fermentation,
      Technology of Functional Foods.
- Annual participation in **Summer Training Programs**: training students in experimental work, laboratory techniques, and supervising field trips to food processing plants and research centers.
- Skilled in simplifying complex scientific concepts and fostering an engaging learning environment.

PERSONAL SKILLS

- **Eager to Learn:** Constantly pursuing new technologies and scientific advancements.
- **Adaptability:** Flexible and open to change, able to adjust strategies in dynamic environments.
- **Teamwork & Independence:** Capable of both leading and collaborating within teams, or working individually as required.
- **Analytical Thinking:** Strong ability to evaluate data, identify trends, and develop effective solutions.
- **Attention to Detail:** Ensures accuracy, precision, and high-quality outcomes.
- **Time Management:** Skilled in prioritization, organization, and meeting deadlines under pressure.
- **Communication & Collaboration:** Effective in both written and verbal communication, with proven ability to build positive professional relationships.
- **Motivation & Enthusiasm:** Self-driven, energetic, and committed to professional excellence.

RESEARCH SKILLS

- **Literature Review:** Expertise in collecting and synthesizing scientific literature to stay updated on emerging trends.
- **Experimental Design:** Skilled in designing protocols, conducting experiments, and ensuring reproducibility.
- **Data Analysis:** Proficient in statistical software (SPSS, R, SAS, M-Stat) for analyzing complex datasets and interpreting findings.
- **Problem-Solving:** Strong ability to identify gaps, formulate hypotheses, and apply innovative methodologies.
- **Scientific Writing:** Experienced in preparing research articles, reports, and theses (abstract, introduction, methods, results, discussion, conclusions).
- **Ethical Standards:** Knowledgeable in research ethics, data integrity, and informed consent procedures.
- **Presentation Skills:** Skilled in oral and poster presentations, using clear visuals to communicate findings.
- **Project Management:** Experienced in planning, budgeting, and coordinating research activities to meet objectives.

ORGANIZATIONAL AND MANAGERIAL SKILLS

- **Independent Project Management:** Successfully managed laboratory projects from design to execution, ensuring high-quality outcomes.
- **Laboratory Operations Oversight:** Supervised food industry laboratory operations, including monitoring supply levels, coordinating with suppliers, and ensuring smooth workflow.
- **Youth Development Initiatives:** Actively contributed to the **Youth Development Family** at the Faculty of Agriculture, supporting student engagement and growth activities.
- **Professional Development Activities:** Member of the **League of Young Masters** at the Alexandria Library, participating in intellectual, cultural, and professional development programs.

JOB-RELATED SKILLS

- **Quality Control & Auditing:** Strong expertise in food quality control processes; currently responsible for conducting **quality audits** to ensure compliance with international standards.
- **Laboratory Expertise:** Proficient in chemical analysis, sample preparation, and experimental protocols across food science and technology research.
- **Data Analysis:** Skilled in applying advanced statistical tools (SPSS, SAS, M-Stat, R) for interpreting experimental data and generating actionable insights.
- **Instrument Handling:** Competent in the operation, calibration, and maintenance of laboratory instruments to ensure accurate and reliable results.
- **Time & Task Management:** Effective at prioritizing and balancing multiple projects under strict deadlines.
- **Team Collaboration:** Experienced in working within multidisciplinary teams, contributing to joint research, training, and industry projects.
- **Problem-Solving & Innovation:** Adept at brainstorming and developing innovative solutions to enhance laboratory efficiency and research quality.
- **Self-Discipline:** Demonstrates strong commitment to accuracy, safety, and adherence to protocols in all research and professional activities.

RESEARCH ACTIVITIES

Ph.D. in Food Science and Technology
Voronezh State University of Engineering Technologies, Voronezh, Russian Federation — June 2018

- Specialization: **Technology of Meat, Dairy, Fish Products, and Refrigeration Industries**
- Dissertation: *"Modifying technology of chitosan from shells of Penaeus semisulcatus shrimp and the study of the possibility of its use as food coatings and additives."*
- Research Fields:
  05.18.04 – Technology of meat, dairy, fish products, and refrigeration industries
  05.18.15 – Technology and commodity research of food, functional, and special purpose meals, and public catering
- Research conducted at the **Chair of Technology of Goods and Commodity Research, Astrakhan State Technical University (ASTU), Russia**.
- **Food Quality & Preservation:** Conducted extensive research on natural antioxidants, edible coatings, and bioactive nanocomposites for enhancing the shelf life and quality of meat, fish, and dairy products.
- **Functional Foods Development:** Investigated the use of plant-based extracts, chia seeds, date pits, and spice-derived bioactives to improve nutritional value and functional properties of food products.
- **Nanotechnology in Food Applications:** Led projects on green synthesis of selenium nanoparticles and chitosan-based nanocomposites for antimicrobial and antioxidant activity in food systems.
- **Biopolymer-Based Packaging:** Developed and applied edible films and coatings (gelatin, sodium alginate, xanthan gum, mucilage)

incorporated with essential oils and plant extracts for food preservation.

- **Collaborative International Research:** Coordinated a research cooperation agreement between **Menoufia University (Egypt)** and **Voronezh State University of Engineering Technologies (Russia)**, focusing on food science innovation and student/researcher exchange.
- **Mentorship & Student Research Supervision:** Supervised MSc and PhD research projects in food chemistry, functional foods, and food preservation, providing guidance in methodology, data analysis, and scientific writing.
- **Publication & Peer Review:** Published multiple articles in peer-reviewed international journals (Elsevier, Springer, Wiley, Taylor & Francis) and served as a reviewer for international journals in food science and technology.
- **Conference Participation:** Regularly presented research findings at national and international conferences, fostering scientific exchange and professional networking.

MEMBERSHIP IN SCIENTIFIC SOCIETIES

- Molecular Member, Executive Committee of the **Russian Institute of Food Professionals (RIFP).**
- Molecular Member, Executive Committee of the **Institute of Gastronomy, Siberian Federal University (IGSFU).**
- Member, **International Advisory Committee**, Asian Food Safety & Security Association (AFSA).
- Member, **Food Research Foundation**, Moscow, Russia.
- Member, **Egyptian Society of Food Science and Technology**, Egypt.

REVIEWER FOR INTERNATIONAL JOURNALS & PUBLISHERS

(Reviewed **50+ manuscripts** for leading journals and publishers)

- **Publishers:** Taylor & Francis (5), Elsevier (6), Springer (5)
- **Journals:**
  Journal of Food Process Engineering (7)
  Journal of Food Engineering (2)
  Food & Function (4)
  Journal of Food and Nutrition Sciences (2)
  World Academy of Science, Engineering and Technology (2)
  Czech Journal of Food Sciences (3)
  Food Chemistry (1), *Journal of Food Biochemistry (USA)* (1), *Journal of Functional Foods* (1)
  Others: *AEJAES* (1), *Minoufiya Journal of Agricultural Research* (5), *IJENS* (2), *Applied Sciences Research* (1), *American J. of Engineering Research* (1), *Food & Bioprocess Technology* (1), *Current Topics in Medicinal Chemistry* (1), *MC Nutritional Health* (1), *Net J. of Agricultural Science* (1), *J. of Food Biology* (1), *Int. J. of Biochemistry & Biotechnology* (1), *Int. J. of Advanced Agricultural Research* (1).

EDITORIAL ROLES

- **Review Editor** (2021–2023), *Frontiers in Food Science and Technology – Food Biotechnology*
- **Editorial Board Member**, *World Journal of Food Science and Technology*
- **Editorial Board Member**, *Medicon Nutritional Health*
- **Editorial Board Member**, *Scienxt Journal of Agricultural Sciences (SJAS)*
- **Editorial Board Member**, *Journal of Public Health Research*
- **Editorial Board Member**, *Nutrition and Food Processing*
- **Reviewer Board Member**, *Medicon Nutritional Health*
- **Editorial Board Member**, *Current Research in Nutrition and Food Science*

EDITORIAL BOARD & ADVISORY BOARD MEMBERSHIPS

Editorial Board Member (Core Journals):

- *International Journal of Medicinal Mushrooms* (SCI, Q3; IF: 1.94)
- *Current Research in Nutrition and Food Science* (SCI, Q3)
- *International Journal of Food and Fermentation Technology (IJFFT)*
- *Journal of Life Sciences (JLS)*
- *Journal of Food Studies (JFS)*
- *Asia Pacific Journal of Food Safety and Security*
- *Nutrition and Food Technology: Open Access*
- *Food & Nutrition Report*

EDITORIAL & ADVISORY BOARD MEMBER (SELECTED INTERNATIONAL JOURNALS – 25+ TOTAL)

- *Journal of Functional Foods* (SCI, Q1; IF: 4.451)
- *Food Bioscience* (SCI, Q1; IF: 4.240)
- *Journal of Food Science* (SCI, Q1; IF: 3.167)
- *RSC Advances* (SCI, Q1; IF: 3.361)
- *Food and Bioprocess Technology* (SCI, Q1; IF: 4.465)
- *Journal of Food Composition and Analysis* (SCI, Q1; IF: 4.556)
- Additional memberships in international journals covering food science, nutrition, biotechnology, and functional foods.

EDITORIAL & PEER-REVIEW ACTIVITIES

Editorial and Advisory Board Member

- **Core Editorial Roles (8 Journals):**
  International Journal of Medicinal Mushrooms (SCI, Q3; IF: 1.94)
  Current Research in Nutrition and Food Science (SCI, Q3)
  International Journal of Food and Fermentation Technology (IJFFT)
  Journal of Life Sciences (JLS)
  Journal of Food Studies (JFS)
  Asia Pacific Journal of Food Safety and Security
  Nutrition and Food Technology: Open Access
  Food & Nutrition Report

- **Additional Editorial/Advisory Roles (25+ Journals, Selected):**

Journal of Functional Foods (SCI, Q1; IF: 4.451)
Food Bioscience (SCI, Q1; IF: 4.240)
Journal of Food Science (SCI, Q1; IF: 3.167)
RSC Advances (SCI, Q1; IF: 3.361)
Food and Bioprocess Technology (SCI, Q1; IF: 4.465)
Journal of Food Composition and Analysis (SCI, Q1; IF: 4.556)

REVIEWER FOR INTERNATIONAL CONFERENCES

- 18th World Congress of CIGR, Beijing, China (September 16–19, 2021)
- The 3rd International Conference on Biomedical Engineering and Biotechnology (ICBEB 2023), Beijing, China (September 25–28, 2023)

DIDACTIC & ACADEMIC COMPETENCIES

- **Pedagogical and Leadership Training**
  Completed advanced training programs at the *International Faculty and Leadership Development Center*, including:
  University Teacher Preparation, Leaders Preparation, Credit Hours System, Research Team Management, Exam Systems & Student Assessment, University Management, Crisis Management, Decision Making, and Problem-Solving.

- **Teaching & Supervision Experience**
  18+ years in higher education, supervising undergraduate and postgraduate students (BSc, MSc, PhD).
  Academic Supervisor of the Biotechnology Program (Bac+1 level).
  Supervised PhD, Master 1, Master 2, and Technical University student projects.
  Member of Student Activities and Academic Programs Committees.

- **Research & Publishing Training**
  Completed *Elsevier Researcher Academy* programs in:
  Research Collaborations, Open Science, Peer Review, Publishing, Journal Selection, Technical Writing, and Book Writing.
  Organized and delivered training on “How to Publish a Scientific Paper.”

EVENTS, WORKSHOPS, TECHNICAL TOURS & SEMINARS:

- **Workshops on Curriculum and Program Development (2018)**
  Description of Programs and Courses (17 September 2018).
  Description of Programs and Courses for Undergraduate and Postgraduate Studies (18 October 2018).
  Discussion of the College's Strategic Plan (10 November 2018).
  Description of Programs and Courses for Postgraduate Studies (19 December 2018).

- **Government Excellence Award & Egypt Vision 2030 (National Planning Institute, 2020)**
  Workshop on *Future Foresight of Specialized Programs* (11–12 March 2020).

Workshop on *Strategic Planning and Specialized Programs* (17–18 March 2020).
Workshop on *Innovation Management and Specialized Programs* (29–30 March 2020).

- **Distance Learning & Accreditation**
  Completed training course *Essential Skills for Distance Learning* (1–10 November 2020).
  Participated in the *First Meeting for Program Accreditation* at the Quality Assurance Unit, Faculty of Agriculture, Menoufia University (17 November 2020).

- **Scientific Workshops during COVID-19 (National Research Center, 2020)**
  Food and its Safety after the Corona Pandemic (10 November 2020).
  Recent Trends in Dairy Science amid the COVID-19 Pandemic (11 November 2020).
  The Era of COVID-19: Food Industry Impact & Lessons Learned (12 November 2020).

- **Community Service & Public Engagement**
  Member, Board of Directors, project on *Developing Small Project Skills in Food Manufacturing among Youth in Menoufia Governorate*.
  Delivered public lectures in cooperation with the Nile Media Center, Ministry of Information, Shibin El-Kom, Menoufia.
  Participated in *agricultural awareness convoys* in collaboration with the Community Service and Environmental Development Affairs Sector, Faculty of Agriculture, Menoufia University.
  Served as a lecturer in a training program on *Potato Production and Health Aspects of Fast Food* at Egypt Foods Company, Quweisna City (organized with Community Service and Environmental Development Affairs Sector, Menoufia University).

TRAINING COURSES AND COMMUNITY ENGAGEMENT

Judging Roles

- Judge in the *Egyptian Typical Food Products Contest* (March 16–17, 2022).
- Chief Judge at the *Menoufia Science and Engineering Fair (ISEF-2022)*, under the auspices of the Directorate of Education – Egyptian Ministry of Education.

Training Programs and Workshops

- Training program on *Managing Business Incubators and Providing Business Development Services for Startups* (ENROOT, February 20–24, 2022).
- Workshop on *Future Foresight of Specialized Programs* aligned with the Government Excellence Award and Egypt Vision 2030 (National Planning Institute, March 11–12, 2020).
- Workshop on *Strategic Planning for Specialized Programs* related to the Government Excellence Award and Egypt Vision 2030 (National Planning Institute, March 17–18, 2020).
- Workshop on *Innovation Management in Specialized Programs* related

to the Government Excellence Award and Egypt Vision 2030 (National Planning Institute, March 29–30, 2020).
- Course on *Essential Skills for Distance Learning* (November 1–10, 2020).
- Workshop on *Program Accreditation* (Quality Assurance Unit, Faculty of Agriculture, Menoufia University, November 17, 2020).
- Training day on *Mechanisms of Excellence in the Agricultural Labor Market* (November 15, 2011).
- *Leadership Preparation Course* (Leadership Preparation Institute, Helwan, April 10–15, 2009).
- Workshop on *Electronic Databases and Digital Library Training* (ICTP, Supreme Council of Universities, April 21–22, 2008).

Community Engagement and Lectures
- Participation in agricultural awareness convoys (Community Service & Environmental Development Affairs Sector, Faculty of Agriculture, Menoufia University).
- Delivered public lectures in collaboration with the *Nile Media Center, Ministry of Information*, Shibin El Kom, Menoufia.
- Lecturer in the training program on *Potato Production and Health Aspects of Fast Food* (Egypt Foods Company, Quweisna City, in cooperation with the Community Service and Environmental Development Affairs Sector, Faculty of Agriculture, Menoufia University).

Scientific Workshops
- *Food and Food Safety in the Corona Pandemic and Beyond* – National Research Center (online, November 10, 2020).
- *The Era of COVID-19: Food Industry Impact and Lessons* – National Research Center (online, November 12, 2020).
- *Recent Trends in Dairy Science Amid the COVID-19 Pandemic* – National Research Center (online, November 11, 2020).

Conference Participation
- Participant, *Scientific Conference on Improving the Quality of Postgraduate Programs in Higher Education Institutions: Facing Challenges and Moving Towards Future Development* (February 25–26, 2009).
- Member of the *Organizing Committee* for the same conference (February 25–26, 2009).

Board Membership
- Member, Board of Directors of the project *Developing the Skills of Small Projects in the Field of Food Manufacturing among the Youth of Menoufia Governorate*.

TRAINING COURSES AND PROGRAMS AFFILIATED WITH THE UNIVERSITY FACULTY CAPACITY DEVELOPMENT PROJECT

- **Time and Meeting Management** – March 7–8, 2023
- **Mind Mapping Skills** – February 28–March 1, 2023
- **Negotiation Skills** – February 20–26, 2023
- **Lifelong Learning** – February 20–21, 2023
- **Creative Thinking for Leaders** – February 19–20, 2023
- **Effective Presentation Skills** – August 14–15, 2018

- **Strategic Planning** – August 7–8, 2018
- **People Management** – July 24–25, 2018
- **Effective Presentation Skills** – July 24–25, 2018
- **Credit Hours System** – July 22–25, 2012
- **Communication Skills in Different Teaching Styles** – June 24–26, 2012
- **Professional Behaviors** – June 18–20, 2012
- **Local and International Competitive Research Projects** – June 10–12, 2012
- **Quality Standards in the Teaching Process** – June 3–5, 2012
- **Ethics of Scientific Research** – July 25–27, 2010

CONTRIBUTION TO STUDENT ACTIVITIES

Preparation of Study Notes

- Contributed to preparing study materials for a wide range of courses, including:
- Meat and Fish Technology
- Food Preservation Technology
- Food Packaging Materials Technology
- Food Chemistry
- Food Analysis
- Food Quality Control
- Computer Applications in Food and Dairy Sciences
- Graduation Project in Food and Dairy Processing Sciences
- Principles of Food and Dairy Industries
- Health Affairs of Food and Dairy Factories
- Scientific Research Methodology in Food Science and Technology

Academic Advising

- Serving as an academic advisor for first-year undergraduate students since 2019, as assigned by the Faculty of Agriculture, Menoufia University.

Supervision of Graduation Projects

- Supervising graduation projects and training for:
  Second-year students (general division)
  Third-year students in the Department of Food Science and Technology
  Third- and fourth-level students in the Food Manufacturing Program, Department of Food Science and Technology, Faculty of Agriculture, Menoufia University.

Supervision of Summer Training

- Supervising summer training programs for undergraduate students in food science and technology, ensuring practical application of theoretical knowledge.

Postgraduate Supervision and Teaching

- Supervising and teaching the course **"Scientific Research Methodology in Food Science and Technology"** for postgraduate students in the Food Industries Division, Department of Food Science and Technology, Faculty of Agriculture, Menoufia University (2018–present).

ACADEMIC SOCIETY MEMBERSHIPS

- Canadian Society for Horticultural Science (CSHS).
- British Society for Plant Pathology (BSPP).
- Society of Plant Signaling and Behavior (SPSB).
- International Society for Microbial Ecology (ISME).

CONCLUSION:

This quote by Lester A. Brown beautifully encapsulates the interconnectedness of all life and the responsibility we have towards our environment. It emphasizes that our existence is intricately linked to the health of our planet and that we must act as stewards rather than owners of the earth. Here's the quote in its entirety:

"All things are connected. Whatever befalls the earth befalls the sons of the earth. This we know – the earth does not belong to man, man belongs to the earth. Man did not weave the web of life; he is merely a strand in it. We have not inherited the earth from our father; we are borrowing it from our children."— Lester A. Brown, 1981
